Wednesday	Grade 7 Parent Information Night at Richmond Secondary
Thursday	
Friday	

Dear Families,

We are happy to share that our PAC is sponsoring a family information night with Dr. Deborah MacNamara. Dr. Deborah MacNamara is the author of the best-selling book *Rest, Play, Grow: Making Sense of Preschools (or anyone who acts like one)*.

Deborah is on Faculty at the Neufeld Institute, and is the Director of Kid's Best Bet, a Counselling and Family Resource Centre. Deborah's virtual presentation to our families on

11. Raising Children in a Digital World

The digital world is here to stay, changing our society in a way that has far-reaching consequences for our children. What are the implications for raising children? How do we harness the spectacular connecting potential and yet avoid the pitfalls of attachment technology gone awry? How do

we prepare them to live in this new world and yet preserve what is required for healthy development to take place? We have followed our children into the digital world and yet for their sakes as well as ours, need to restore our lead in order to avoid the insidious dangers that live in the shadows of this potent technology. We will consider the digital revolution through the lens of developmental science, committed to helping adults help children reach their full human potential.

Wednesday, February 21st from 6:30pm - 8:00 pm. The session will be recorded, and available to our community for 2 weeks after the event. The link to join the presentation will be emailed to families prior to the event.

We believe that with the challenges we all face with cell phone use that this topic is one we can all benefit to learn more from. *Raising Children in a Digital World* is a timely and important topic for all of us. We hope that you will be able to join us on February 21st!

Wishing you all good health,

Kathy Pantaleo and
Leah Scharf
